### Week 2

**L.Q.**
**Can I make a choice about how to improve my health?**

**Can I set a simple goal?**

Split children into mixed ability groups. Tell cdn they are going to decide on a physical group task on something they all want to improve on over the next few weeks. Children must consider what others are good at/not good at before deciding. Which activity do you think will make you healthier? Fitter? Teaching staff should consider a task too - that they can practice alongside the children. Model discussing what you would like to improve with adults.

Provide options for outdoor activities - long jump, javelin, throwing/catching ball, skipping, throwing beanbags in a hoop, net ball.

Cdn will need a short regular weekly slot (3 weeks) to help them achieve their goals. Review goals each week. Who needs help achieving goal? How can you help them - showing, encouraging, praising - model language “Great try!” “Fantastic effort”, “Keep trying” “Wow – good improvements etc

### Wk 3

(Explain what the British Heart Foundation is - a charity dedicated to preventing heart disease – they raise money to fund research) and discuss.
